**Maple & Birch Bookkeeping** (SAMPLE) · Policy version 1.0 (2026-11-02)

> **SAMPLE: fictional office.** "Maple & Birch Bookkeeping" is made up to show what a Clear Rules client document looks like. This is general guidance, not legal advice. Clear Rules Cyber Security makes no promise of compliance with any law, insurance result, or security outcome.

I have read the AI Acceptable-Use Policy (version 1.0) and the AI Quick Rules. I completed the training walkthrough and quiz. I understand that:

1. I use only the approved tools, with company accounts.
2. I never put RED or NEVER information into a general AI tool.
3. I check AI output before it is sent or relied on.
4. I report problems to the Policy Owner the same day.
