Vendor AI Checklist

Maple & Birch Bookkeeping (SAMPLE) · Use before approving any new AI tool, or when an existing vendor switches on a new AI feature.

> **SAMPLE: fictional office.** "Maple & Birch Bookkeeping" is made up to show what a Clear Rules client document looks like. This is general guidance, not legal advice. Clear Rules Cyber Security makes no promise of compliance with any law, insurance result, or security outcome.

Tool / feature: _____ · Requested by: _____ · Task it's for: _____

#	Question	Answer / where found
1	Is there a business or company plan, and will we use it (not personal accounts)?	
2	Does the vendor use our inputs to train its models? Can it be switched off for the whole account?	
3	Where is the data stored and processed (Canada, US, other)? Is that acceptable to tell clients?	
4	How long does the vendor keep prompts and files? Can we delete them?	
5	Who at the vendor can see our data, and when?	
6	Does it connect to our email, files, or calendar? What can it see once connected?	
7	Can we manage users (add or remove, enforce MFA)?	
8	Is there a published security or privacy page? Link:	
9	What does it cost per seat, and does a free tier tempt staff to use personal accounts?	
10	Which colours of data (GREEN/AMBER/RED) would we allow?	
11	Do our client engagement letters or contracts limit using outside tools on their data?	
12	Who checks the output, and how?	

Decision: [ ] Approved for _____ data · [ ] Approved with limits: _____ · [ ] Not approved Policy Owner: _____ · Date: _____ · Added to Register: [ ] yes
